

PATIENT SEDATION

Nursing Personnel manage patients receiving sedative or analgesic medications undergoing invasive diagnostic or therapeutic procedures. Joint commission standards, ASA classifications, AANA and ASA guidelines for medication administration, patient monitoring, discharge instruction, family teaching and patient safety concerns are critical care elements reviewed.

This workshop discusses interventions to correct partial and complete airway obstruction, identifies side effects and contraindications to medication that have the potential to suppress patient's protective reflexes and respirations and outlines ways to effectively manage complication which might arise during moderate sedation.

TESTIMONIALS

This course is excellent for Conscious Sedation Nurses – whether experienced or inexperienced. I especially liked the complimentary therapy session, it dealt with interventions that I had never thought of before. Thank you! - Angie Isham

Course was great! I wish you could have a seminar @ my hospital with all of the staff and MD's - Stacy Adams

Great experience - addressed several issues that I have been interested in – looking forward to attending more classes and expanding my knowledge base - Tiffany Brown, RN

“You are a 10 in this presentation.” I have been to classes for the last six years and I have learned more today that is on my level than the other classes I have attended. Thank you very much; this has been a great class. –Connie Childers

Thank-you Ron. Your teaching style and content were both enjoyable and informative. – Margaret A. Finn

Ron was a great speaker, had a great personality and was very knowledgeable. GREAT is all I can say. -Steve Buckley, RN

MODERATE SEDATION CERTIFICATION

*5 Convenient ways to Complete
Your Sedation Certification*

**DO NOT PUT YOUR
LICENSE IN JEOPARDY!**

**DESIGNED FOR NURSES & PAs
Working In:**

ER
PACU
OPERATING ROOM
SPECIAL PROCEDURES
GASTROENTEROLOGY
ENDOSCOPY
RADIOLOGY
OPHTHALMOLOGY
PLASTIC SURGERY

DVD - ONLINE - OUR/YOUR FACILITY FACILITY LICENSE

ALL SEDATION CERTIFICATION COURSES INCLUDE:

- Sedation Manual
- PowerPoint Presentation
- Certification Application
- Sample Informed Consent
- Sample Monitoring Record
- Post Test and Answer Sheet
- CD with all Course Materials
- 8 Continuing Education Credits
- 6 CE Credits Pharmacology
- Sample PACU Discharge Record
- Intra-Operative Biorhythmic Music CD
- Comprehensive Certification Competency Manual
- One Year Membership in AAMSN with completed certification
- Earn the credential of Certified Sedation Registered Nurse or Physician assistant (CSRN or CSPA)

Healthy Visions is an approved provider of continuing nursing education by the Alabama State Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation (ANCC). Approved for a total of 8 CE Credits with 6 Pharmacology Credits Code # 5-133

Completion of this training certifies that the attendee has successfully completed a course of study on moderate sedation and has met the training objective. This training does not certify the competence of the person completing the training.

**CERTIFICATION IS FOR 2 YEARS AND INCLUDES
YOUR FIRST YEAR MEMBERSHIP IN THE AAMSN**

Recertification information can be found at
www.sedationcertification.com
info@sedationcertification.com

INFORMATION DVD

Those successfully completing the Sedation Certification Requirements receive one year free membership in the American Association of Moderate Sedation Nurses

www.aamsn.com

AAMSN is a nonprofit corporation pursuant to the Tennessee Nonprofit Corporation Act.

**Michael R. "Ron" Eslinger Capt, RN Retired,
RN, CRNA, APN, MA, FNCH
Course Director and Instructor**

Ron Eslinger, positions included Chief CRNA and Assistant Department Head. He was Assistant Officer and Chief Nurse on the Navy Hospital Ship USNS Mercy. FIVE OPTIONS TO RECEIVE MODERATE SEDATION CERTIFICATION

FOLLOW THESE STEPS TO GET STARTED

1. Watch information video on page 7
2. Choose the program best for you
3. Purchase your program choice on line or complete registration page 6
4. Complete the certification program you chose
5. Contact us at 1-866-312-3159 or info@sedationcertification.com

1. STUDY AT HOME DVD SET

DVD \$200.00
 For more information and to purchase go to
www.sedationcertification.com or call 1-866-312-3159
 Exam can be taken on line

2. STUDY AT HOME ON LINE

ON LINE \$200.00
 For more information and to purchase go to www.sedationcerification.com
 or call 1-866-312-3159

3. FACILITY LICENSE IS AVAILABLE

License can be a mixture of DVD and ON LINE
 Facility License is good for 2 years and includes an unlimited number of
 Certifications.
 Facility will receive DVD training set and on line access. Facility will assign
 a contact facilitator for the Facility program.
 License fee is \$2,000.00. To view License Agreement and/or to purchase
 go to www.sedationcertification.com or Call 1-866-312-3159

4. ON SITE - YOUR FACILITY

We come to you for a one day course. You may have an unlimited number
 of participants.
 Your Facility furnishes classroom and refreshments. All materials, transpor-
 tation and hotel expenses included \$3,500.00. (Price may vary for locations
 outside the U.S.)

5. ON SITE - OUR LOCATION

See following page for fees, discounts and area information.

**All course exams can be taken on line.
 Your two year Certification Includes
 One Year Free Membership in the AAMSN**

OUR FACILITY REGISTRATION

OUR LOCATION

800 Oak Ridge Turnpike, Suite A-208,
Oak ridge, Tennessee or other as designated.

CURRENT ACLS OR PALS CERTIFICATION REQUIRED

LEARNING OBJECTIVES

- Communicate the differences between minimal sedation, moderate sedation, deep sedation, and general anesthesia.
- Identify your institution's policy regarding care of the patient undergoing sedation.
- Demonstrate care for the patient during pre-procedure, intra-procedure, and post-procedure phases of sedation.
- Outline the drugs, routes, and dosages for the drugs commonly used in moderate sedation
- Discuss antidotes (dosage, side effects and indications) for commonly used drugs with sedation.
- Describe signs and symptoms of partial and complete airway obstruction.
- Name interventions to correct partial and complete airway obstruction.
- Explain the side effects and contraindications to medications that have the potential to suppress a patient's protective reflexes and respirations.
- Emphasize the significance of utilizing the ASA classification during pre/post procedural pediatric and adult assessment.
- Integrate age-specific principles into care of the pediatric and geriatric patient undergoing moderate sedation.
- Verify possible complications and list intervention criteria.

WHAT IS COVERED IN THIS COURSE

- Pharmacology—what you can and what you can not use
- Equipment required & desired
- Complications - easier to prevent than to manage
- Patient discharge
- Competence in Patient management
- Pediatric and geriatric sedation
- The mechanically ventilated patient
- Risk management
- The power of suggestion and music for patient sedation to enhance outcomes
- Scope of practice issues
- Standards of practice
- Controversial issues
- Levels of sedation
- Objectives of moderate sedation
- JCAHO policy
- Pre-sedation assessment
- Intra-procedural monitoring
- Post-procedure assessment
- Informed consent for the patient
